

RE-GEN™
Pit & Fissure Sealant

Available Now!

RE-GEN™ Pit & Fissure Sealant is a hydrophilic, wet bond material, that bonds remarkably well in a moist environment. Because of its bioactive properties, RE-GEN™ is able to prevent demineralization and inhibit secondary caries at the margin, ensuring exceptional margin stability.

CONTAC EZ[®]

Interproximal Solutions

Save \$15.00 on all IPR Strip 8 pks

The ContacEZ IPR Strip System is a safe and innovative interproximal reduction system that makes interproximal enamel stripping efficient and accurate without creating sharp corners or subgingival ledges. These flexible diamond strips curve and conform along the natural contours of the teeth to maximize patient comfort and safety.

Matrix Buttons.

The fastest and simplest way to make custom impressions for temporary crowns. When making temporary restorations, you can be in and out of the patient's mouth in 30 seconds with Matrix Buttons from Advantage Dental. Simply soften a button in hot water. Then form it around the tooth (or teeth) to be prepped. Blow air to harden. Then remove.
